## Chosen projects

### [opuchalski.pl](#) – Personal blog

The blog focuses on frontend technologies, specifically React and TypeScript. The content is tailored towards new developers, but can be useful for anyone interested in these topics.

### [Hyperfuncor](#) – Modern and robust e-commerce shop

- Front-end: Next.js, GraphQL, Stripe, TypeScript, TailwindCSS
- Testing: Testing Library, Playwright, Github Actions
- Back-end: Hygraph, Mailerlite

### [AKAI Code](#) –Event page for Academic Group Hackathon

7 People

I worked in a team with a designer, two developers and a couple of people from the organization. The most important thing I learned was how to create multilingual sites using modern tools

And many more...
